

Customers want energy efficient homes

It's no secret that energy efficiency is important to customers. In fact, research shows that 56% of consumers find it "very important" to have an energy efficient home. However, only 9% think their home is energy efficient.¹

To encourage energy efficiency adoption, it's essential to promote your programs in a way that matters to customers.

Join us for our next Plugged In webinar, "Energy Efficiency Adoption Solutions" on **September 23 at 1 p.m. EST** to learn how to promote energy efficiency solutions to your customers.

In this webinar, we'll discuss:

- Why energy efficiency adoption can be difficult to promote
- How to promote EE adoption by listening to customers
- Using segmentation to showcase residential and business customer benefits
- Examples of effective EE program promotions

Our Speakers

Laurel Gerdine
Head of Client Marketing
Franklin Energy

Mary Medeiros McEnroe
